

## HELP WITH PAYING FOR PSYCHIATRIC MEDICATION IS AVAILABLE

If you are taking psychiatric medications, it is very important that you keep taking the prescribed medication as directed by your doctor. If you have no Medicaid card and can't pay for a medical exam and/or psychiatric medication, please see below for assistance:

1. A medical exam can be obtained at the local Community Health Center/Clinic. Click on <http://health.utah.gov/lhd/lhd-directory.pdf> for locations. Tell the doctor what medications you have been taking and what your diagnosis is so that he or she will better understand your medical history.
2. After seeing the doctor, take the written prescription to:  
NAMI-Utah (National Alliance for the Mentally Ill)  
309 East 100 South,  
Salt Lake City, Utah, 84111  
Local phone number: 801-323-9900  
Toll free number: 1-877-230-6264  
Fax number: 801-323-9799
3. Staff at NAMI will help you fill out an application and fax a copy of the application and the prescription to the drug company who makes the drug.
4. The drug company will go over the application, determine eligibility for free medications and send a voucher to the local drug store or directly to you so the medication can be obtained quickly.
5. The process will take several days—so please plan ahead a week or two so your medication can be refilled in time.
